

Health care services available

Cincinnati Public Schools partners are working so school-based medical, dental and mental health care services are still available to your student and family.

Call before you go. Many problems can be handled over the phone.

If you need to be seen, providers will tell you next steps.

MEDICAL CARE

It's important to continue to manage pre-existing health conditions. If you have a health question, call your regular doctor or one of the school-based health centers below.
